

SAFETY DATA SHEET

Section 1 - Identification

Manufacturer's Name & Address

Atmosphere Dynamics Corporation 1107 St Joseph Street Shelbyville, Indiana 46176 USA

GHS Product Identifier

Catalyst Support Spheres

Trade Names and Synonyms

Alundum Spheres

<u>Recommended Use</u>

Catalyst Support

<u>Telephone Number</u>

317.392.6262

FAX Number

317.392.1773

Product Numbers

CSS03

Recommended Restrictions

None known

Section 2 – Hazard(s) Identification

OSHA/HCS Status:	This material is considered hazardous by the OSHA Hazard	
	Communication Standard (29 CFR 1910.1200)	

<u>Health Hazards:</u>	SPECIFIC TARGET ORGAN TOXICITY – Category 1	
	(Repeated Exposure)	
	CARCINOGEN – Category 1A	
	SENSITIZATION, SKIN / RESPIRATORY – Category 1	

GHS Label Elements:

SAFETY DATA SHEET - Page 2 CSS03

<u>Signal Word:</u>	DANGER
<u>Hazard Statement:</u>	Health hazards, including cancer, may arise from inhalation of dust generated from handling, ingestion and/or contact with skin and/or eyes
<u>Prevention:</u>	Do not breathe dust Wash thoroughly after handling Do not handle until all safety precautions have been read Wear respiratory protection
<u>Response:</u>	If exposed or concerned, get medical advice or attention
<u>Storage:</u>	No precautions needed
<u>Disposal:</u>	Dispose of contents in accordance with all local, regional, national, and international regulations

Hazards not otherwise Classified:

None known

Section 3 – Composition / Information on Ingredients

<u>Mixture</u>

<u>Ingredient Name</u> Quartz, SiO ₂	<u>CAS Number</u> 14808-60-7	<u>%</u> 5-10
Aluminum Oxide	1344-28-1	70-90
Cristobalite	14464-46-1	5-10
Calcium Oxide	1305-78-8	5-10
Titanium Dioxide	13463-67-7	1-3

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

SAFETY DATA SHEET - Page 3 CSS03

Section 4 – First Aid Measures

- *Inhalation:* Remove to fresh air. May give oxygen. Consult physician.
- *Eye Contact:* Flush eyes with copious amounts of water, at least 15 minutes.
- *Skin Contact:* Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if irritation or inflammation persists.

Ingestion: Induce vomiting if conscious. Consult physician.

Most important symptoms/effects, acute and delayed Over-exposure signs/symptoms:

- <u>Inhalation:</u> Inhalation of concentrations above the Occupational Exposure Limits may cause congestion and irritation of the throat, nasal passages and upper respiratory system.
- *Eye Contact:* Temporary irritation and inflammation Check for and remove any contact lenses If irritation persists, seek medical attention
- Skin Contact: May cause allergic dermatitis
- *Ingestion:* May cause stomach and intestinal distress

Indication of immediate medical attention

and special treatment needed: Medical conditions which may be aggravated by exposure include upper respiratory and lung disease such as, but not limited to, bronchitis, emphysema, and asthma.

Section 5 – Fire-fighting Measures

Specific hazards arising from the chemical: None known

Hazardous Decomposition:During initial exposure to service temperatures, smoke may
be emitted which can cause transitory irritation to the lungs
and upper respiratory system. Toxic fumes of nitrogen
oxides and metal oxides may be present during
decomposition.

SAFETY DATA SHEET - Page 4 CSS03

Special protective actions for firefighters: Material will not burn No special firefighting equipment is necessary

Section 6 – Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

No action shall be taken involving any personal risk or without suitable training Provide adequate ventilation Wear appropriate respirator when ventilation is inadequate Put on appropriate personal protective equipment (see section 8)

Methods and materials for containment and cleaning up:

Contain spill. Pick up and place in container for disposal in accordance with Federal, State and Local laws.

Section 7 – Handling and Storage

Precautions for safe handling:	Minimize dust generation. Use appropriate respiratory protection if dust is present above exposure limits. Avoid contact with eyes and skin.
<u>Conditions for safe storage:</u>	Store in accordance with local regulations. Store in a dry, cool and well ventilated area, away from incompatible materials (see section 10).

Section 8 – Exposure Controls/Personal Protection

Occupational Exposure Limits:

US OSHA Permissible Exposure Limit:

Irritant (Nuisance) Dust:	5.0 mg/m^3
Aluminum Oxide (Respirable):	10 mg/m ³
Calcium Oxide:	2 mg/m^3
Titanium Dioxide:	10 mg/m ³

SAFETY DATA SHEET - Page 5 CSS03

Appropriate Engineering Controls:	If user operations generate dust, use process	
	enclosures, local exhaust ventilation or other	
	engineering controls to keep worker exposure	
	below any recommended or statutory limits.	

Individual Protection Measures:

<u>Respiratory:</u>	Wear a NIOSH-approved dust mask to limit exposure. Higher dust levels may require use of a half or full mask respirator with dust filters.
<u>Eye/Face:</u>	Wear safety glasses with side shields or goggles complying with an approved standard to avoid exposure to dust.
<u>Skin:</u>	Protective gloves complying with an approved standard should be worn when handling chemical products.

Section 9 – Physical and Chemical Properties

<u>Appearance</u> **Physical State** <u>Color</u> **Odor Odor Threshold** <u>pH</u> Melting Point **Boiling Point** Flash Point Burning Time Specific Gravity **Burning Rate** <u>Evaporation Rate</u> Flammability (solid, gas) Lower Explosive (flammable) Limit Upper Explosive (flammable) Limit Vapor Pressure Vapor Density **Relative Density**

Section 10 – Stability and Reactivity

<u>Reactivity:</u>	The product is stable and non-reactive under normal conditions	
Chemical Stability:	Stable under normal temperature conditions	
<u>Possibility of Hazardous</u> <u>Reactions:</u>	Under normal conditions of storage and use, hazardous reactions or polymerization will not occur	
<u>Conditions to Avoid:</u>	Avoid strong acids and ammonium salts. Contact with strong oxidizing agents (such as fluorine, chlorine trifluoride) may	
present	a fire hazard.	
Incompatible Materials:	Hydrofluoric acid, fluorine, chlorine trifluoride, oxygen difluoride	
Hazardous Decomposition		

Materials: Metal oxides may be present during decomposition

Section 11 – Toxicological Information

Information on likely routes of exposure

Ingestion: May irritate and cause stomach pain, vomiting and diarrhea

Inhalation: May cause allergic respiratory reaction

Skin contact: May cause an allergic skin reaction

Eye contact: May irritate eyes

Information on toxicological effects

Acute toxicity (list all possible routes of exposure)

Oral Product: No data available

Dermal Product: No data available

SAFETY DATA SHEET - Page 7 CSS03

<u>Inhalation</u> <u>Product:</u>	No data available
<u>Repeated dose</u> <u>toxicity product:</u>	No data available
<u>Skin corrosion/</u> irritation product:	May cause skin irritation
<u>Eve damage/</u> irritation product:	May cause temporary eye irritation
<u>Respiratory or</u> skin sensitization product:	² May cause allergic skin reaction
<u>Carcinogenicity</u> product:	NTP- In its twelfth annual report on Carcinogens, quartz and titanium dioxide were classified as a known human carcinogens.
	IARC (Volume 68) – There is sufficient evidence in humans for the carcinogenicity of inhaled aluminum oxide in the form of quartz or cristobalite from occupational sources.
<u>Germ cell mutagenicity</u>	
<u>In vitro</u> product:	No mutagenic components identified
<u>In vivo</u> product:	No mutagenic components identified

Reproductive toxicityproduct:No components toxic to reproduction

Specific target organ
toxicity- single exposure
product:None known

SAFETY DATA SHEET - Page 8 CSS03

<u>Specific target organ</u> toxicity- repeated exposure product:	None known
<u>Aspiration hazard</u> product:	Not classified
Other effects:	Not known

Section 12 – Ecological Information

Toxicity

<u>Persistence and</u> <u>Degradability:</u>	Anorganic product, is not eliminable from water by means of biological cleaning processes
<u>Bioaccumulative</u> <u>Potential:</u>	Not available
<u>Mobility in Soil</u>	
<u>Soil/water partition</u> <u>coefficient:</u>	Not available
<u>Other adverse</u> <u>effects:</u>	Most of the ingredients in this product are naturally occurring minerals, and unless contaminated in service, are not hazardous to the environment

Section 13 – Disposal Considerations

Disposal Methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

SAFETY DATA SHEET - Page 9 CSS03

Section 14 – Transport Information		
<u>US DOT Shipping Name:</u>	Not regulated	
<u>DOT Label:</u>	None	
<u>UN/NA Number:</u>	None	
<u>Canadian TGD Shipping</u> <u>Description:</u>	Not regulated as dangerous goods according to Canadian TDGA	
<u>International Dangerous Goods</u> <u>Information:</u>		
<u>IMO:</u>	Not regulated as dangerous goods according to the IMDG Code	
<u>ICAO:</u>	Not regulated as dangerous goods according to the IACO Technical Instructions	
<u>IATA:</u>	Not regulated as dangerous goods according to the IATA Dangerous Goods Regs	

Section 15 – Regulatory Information

US Federal Regulations

TSCA 8(a) CDR Exempt/Partial exemption:	Not applicable
United States Inventory (TSCA 8b):	This material is listed
CERLA Hazardous Substance List (40 CFR 302.4):	None present in regulated quantities
SARA 302 Extremely Hazardous Substance:	None present in regulated quantities
SARA 304 Emergency Release Notification:	N/A
SARA 311/312 Hazardous Chemical:	N/A
SARA 313 (TRI Reporting): Reporting threshold for other users:	N/A
<u>Reporting threshold for manufacturing</u> <u>and processing:</u>	N/A

SAFETY DATA SHEET - Page 10 CSS03

<u>Clean Air Act Section 112</u> (b) Hazardous Air Pollutants (HAPs):	Not listed
<u>Clean Water Act Section</u> <u>311 Hazardous Substances</u> (40 CFR 117.3):	None present in regulated quantities
<u>Clean Air Act Section 602</u> <u>Class I Substances:</u>	Not listed
<u>Clean Air Act Section 602</u> <u>Class II Substances:</u>	Not listed
DEA List I Chemicals (Precursor Chemicals):	Not listed
<u>DEA List II Chemicals</u> (<u>Essential Chemicals):</u>	Not listed

Section 16 – Other Information		
<u>Issue Date:</u>	6/1/2015	
<u>Revision Date:</u>	8/30/2022	
Version #:	1.3	

DISCLAIMER – Atmosphere Dynamics Corp. believes the information contained in this Safety Data Sheet (SDS) to be accurate and reliable as of the date of issue, and is provided in good faith as a service to our customers and to comply with applicable laws. This document is intended as a guide for the safe handling, storage, and use of this material under normal conditions of use.
